

PRANAV C

MERN FULL STACK DEVELOPER

Kondotty, Kerala || +91 9995838649 || pranavparathakkad@gmail.com || [linkedin.com/in/pranav-c-4aa4b5270](https://www.linkedin.com/in/pranav-c-4aa4b5270) || <https://github.com/PranavChenepuravan>

CAREER OBJECTIVE

Experienced MERN stack developer skilled in building scalable, responsive web applications with HTML, CSS, React.js, MongoDB, Node.js, and Express.js. Strong problem-solving abilities, quick learner of new technologies. Committed to quality code and exceeding project goals. Seeking challenging role for growth in a dynamic team.

Accomplishments

- Developed a Worship Management Portal for Pilgrims and Religious Institutions using Mern stack, introducing features like Pilgrims can prebook and donate via online.
- Demonstrated proficiency in MERN stack development, actively updating skills to remain current with industry trends and best practices.
- Exposure: HTML, CSS, React.js, Node.js, Express.js, MongoDB, JavaScript

PROJECTS

WORSHIP SERVICE TRACKER

- The Worship Service Tracker portal simplifies Transactions in a religious institution via online accessibility.
- It aims to bring a transparent transaction management in a religious institution.
- It is a web platform commonly used by Hindu, Muslim, and Christian pilgrims.
- It offers government services such as archaeology and income tax based on the location of religious institutions.
- Tools: HTML, CSS, React.js, Node.js, Express.js, MongoDB, JavaScript.
